# TORONTO GENERAL HOSPITAL

Toronto, March 27, 1920.

Dear Sir Robert Falconer:-

I am becoming very anxious on account of the delay in the proposed legislation to grant the General Hospital $125,000.

If the Board does not obtain the amount at this session the sum we are promised by the City and all other private subscriptions, amounting to some hundreds of thousands will be nullified as they were all given conditionally upon our obtaining the $125,000 from the Government or the University. A few of the private subscriptions are already paid but these the Trustees would have to return as they were only sent in conditionally.

I am sure you will pardon me for unloading my anxiety on you but I do not know who else to communicate with who could help on what we all so much desire.

With kindest regards, I am,

Yours truly,

P C Larkin

to -

Sir Robt. Falconer, K.C.M.G.,
President the Toronto University,
Toronto.

March 29th, 1920

F. C. Larkin, Esq.,
The Toronto General Hospital,
Toronto.

Dear Mr. Larkin:

I have already on several occasions brought the matter of the grant of $125,000 from the Government to the University on behalf of the Hospital before the Government. Last Friday the Provincial Treasurer and the Minister of Education both assured me it would go in. I am to-day, however, also forwarding a letter to Mr. Grant urging the matter upon him again. I leave to-day for the West for a fortnight and can therefore do nothing until my return, but I have every confidence that before the close of the session not only the deficit on our own budget but also the grant to the Hospital will be provided for.

Yours sincerely,

President.
